

Use Case – Telecom Sector (Etisalat)

Event:

International Telecom Week (ITW) 2025

Location: Gaylord National Resort & Convention Center, National Harbor, MD, United States

Dates: May 5–7, 2025

Company & Role:

You are working with **Emirates Telecommunication Corporation (Etisalat)** as a **Business Analyst – Voice and Data** based at the **Corporate Head Office in Abu Dhabi, UAE**.

You are accompanying the **Executive Vice President – Carrier and Wholesale Service** to ITW 2025, where Etisalat will be negotiating international voice traffic termination agreements with global telecom operators.

Your Objective:

To assist the EVP in making informed decisions regarding **International Traffic Settlement Rates** using data analysis.

You are provided with:

1. **Pricing Proposals** from the following telecom operators:
 - Belgacom (Belgium)
 - France Telecom (France)
 - TATA Communications (India)
 - Telstra (Australia)
2. A **Microsoft Excel file** containing **Etisalat's Outgoing Telephone Traffic Data** by destination.

Your Tasks:

Before formal contract meetings, the EVP expects you to deliver insights on the following:

Termination Rate Decisions

- Analyze outgoing traffic volumes by country/region.
- Match this traffic data with per-minute rates proposed by each operator.
- Recommend which termination rates to accept for **maximum cost efficiency**.

Table:

Business Partner	Destination	Prefix	Price
TATA	Pakistan Mobile	92345	0.15
TATA	Pakistan Karachi	92213	0.19
